#### Deaths in South Christian.

Lafayette, April 11.—Died on the 10th inst., Mrs. Julia Purcell, wife of L. J. Purcell, of this place, in the 98th year of her age. She leaves a husband and six children, the youngest of which is a little girl two months old. She had been a member of the Christian church for a number of years, and was a most estimable lady and will be greatly missed by the whole community.

Died of pneumonia this morning at 6 o'clock, Troy Miller, a young farmer of the Bennettsburg neighborhood. He was 25 years old, unmarried, and was an excellent young man of high standing in the community.

#### Asylum Changes.

The removal of this city last week, of Dr. R. F. Eager, first assistant physician at the Western Asylum, has necessitated some temporary changes at that institution. The third assistant physician, Dr. Stanley, is now acting as first assistant, and Dr. Kortlander, the druggist, is filling Dr. Stanley's place. It is not known who will, go to Eager's place. Dr. Eager's retirement was entirely voluntary, as he had assurances that he would be allowed to serve out his term, a year longer. As previously mentioned he has located in this city.

#### Will Work for Forbes & Bro.

Mr. J. C. Buckner, late steward at the Western Asylum, has connected himself with the establishment of Messrs. Forbes & Bro., as collector and general husher. Mr. Buckner is a gentleman of wide popularity and a business man of fine qualifications and successful experience. He will make the firm a first class man.

#### A Fine Assesed.

Judge Breathitt tried the case of J. W. Cayce Saturday, charged with an assault on W. S. Boles. The fracas was mentioned in Friday's Kentuckian. Mr. Cayce was fined \$5.00 and costs. Dan Hanbery, reported as having been a party to the trouble, had nothing to do with it.

#### The Hoagins Meeting.

Dr. Felix is still preaching two powerful sermons a day at the Baptist church and the crowds at the evening services fill both rooms of the church. On Sunday morning there were three additions to the church. The meeting will continue only a few days longer.

#### Elkton Went Dry.

The Elkton people took a vote on the question of "wet or dry" last Thursday and the "Dry" won by 77 majority in a total vote of 229. There are several saloonmen in the place and as soon as their present licenses expire they will quit the business.

#### Hopkinsville Wins the First Games.

The Hopkinsville base ball club defeated the Russellville nine, on the latter's grounds Friday, the score being 9 to 7. Russellville has an excellent team, but our home boys outplayed them at every point and won with ease.

#### Tramp Gets a Job.

Scott Ewing, a tramp, charged with breach of the peace, was sent to the work house for ten days by Judge Hanbery Saturday. Ewing says it's the first steady job he has had for some months.

#### "Fined" Five Negroes.

Marshal Slackwell, of Trenton, arrested five negro men one day last week for jumping on moving trains. Judge Graves gave them five days, each, on the rock pile and they were immediately put to pulverizing lime stone.

#### Broke His Arm.

Col. W. T. Finch, a well known and prominent citizen of the Fairview neighborhood, fell and broke his arm one day last week while getting over a fence on his farm.

#### Soldiers' Remains Removed.

The remains of the soldiers killed during the war and buried near Madisonville, were taken up yesterday and re-interred in Old Fellows Cemetery in that city.

#### Postoffice Change Made.

The postoffice at Sharon Grove, Todd county, changed hands last week. Dr. W. H. Sarver resigned and Dr. B. E. Eager was immediately appointed to fill the vacancy.

The Evening News, of Louisville, suspended after running one week.

### HE CAN'T CARRY IT.

Dr. Chasdy Again Says Carlisle Would Lose  
Kentucky.  
[Owensboro Messenger.]

The Messenger last night received by mail the following from Congressman Chasdy:  
WASHINGTON, D. C., April 7, '96.

#### EDITOR MESSINGERS:

I have just received your telegram and sent the following answer:  
"I emphatically deny the statement you quote from the Post. Have uniformly stated as my opinion that if nominated Carlisle could not carry Kentucky."

I have not seen the Post, but may safely say I have never seen anything in the Post which fairly represents any silver man.

Mr. Carlisle, I differ widely with him on the money question, and therefore am opposed to him for the presidential nomination. I do not abuse anybody, either privately or in my public utterances. My convictions have never wavered on the proposition that silver and gold should and will, when the people settle the question, constitute the standard or final redemption money of this country.

The removal of the Post's mistake; that, in such a State convention as the one held last year, as a presidential candidate, but as I have often stated, in my opinion, he would not, under existing circumstances, be able to carry Kentucky at the November election. I think this is the sum of my offending, whatever the Post may say.

The fight now is a candidate to suit our individual views is perfectly legitimate and proper. But as a Democrat loyal to the party, when the national Democratic convention fairly organized has spoken for the party, and made a nomination, I expect to stand by that nomination. And so should every true Democrat. Let us when the party speaks, sink individual opinions on special subjects, and unite to bring success to the ticket. And rely on good sound Democratic common sense to correct, whatever may be found to be wrong, in platform principles. Only in "union is there strength." It is a mighty power. That would not make a better president than a Republican.

#### Hastily and Truly,

J. D. CLARK.

#### Names That are Doubtful.

There are in Hopkinsville several gentlemen who are "two of a kind" so far as names go and the postmaster is often put to his wits ends to keep their mail from getting mixed. To begin with, there are two Jas. D. Russells in the city who are in no way related each other. One is Vice President of the Planters Bank and the other manager of the Telephone Exchange. The banker has on of the same name, so in this case there are three residents of the city who answer to the name of J. D. Russell. Another pair of doubles are the Robt. S. Carters. One is the Episcopal Minister and the other lives on South Main. In this case one is known as "R. S. Carter" and the other as "R. S. Carter," and they manage to keep themselves pretty well identified.

A letter addressed to Walter Lee Whitesides was taken out of the post office last week by the foreman of the Kentuckian, office that was evidently not his. He knew of no other man of the same name, nor did anybody else in town, but Saturday a drummer turned up in search of the letter. The two men bearing the same name, middle name and all, were total strangers and in no way related. The drummer had ordered his mail sent here to meet him on his arrival.

There used to be two J. H. Andersons, a merchant and a railroad man, but the latter moved away a year or two ago.

Mr. J. M. Adams, the L. & N. agent, also has a "double," but he lives at Church Hill, a few miles from town. Of course there are many cases where father and son bear the same name, and many others where a white man and a negro have the same name, but the cases mentioned above are some where there is apparently no way to separate the identity of the parties without adding the man's business to his name in addressing mail.

There is also more or less confusion in cases where two or more parties bear the same name except as to the middle initial. Unless the full and correct name is given, the letter is in many cases apt to miscarry.

#### It would be well enough to add that the editor of the Kentuckian has no copyright on his name except the middle initial. The rest of it is borne by two other Charles Messingers.

#### Gets Thirty-six Days.

Geo. Dixon, col., was tried Saturday for carrying a concealed deadly weapon and sentenced to the work house for 36 days. A razor was the weapon found in his jacket.

### FRANKS OF COURSE.

THE REPUBLICAN DISTRICT CONVENTION YESTERDAY.

The Convention Had Done Nothing of Importance Late Yesterday Afternoon.

A large delegation of local Republicans went to Madisonville to attend the district convention to nominate a candidate for Congress. W. T. Fowler, J. P. Fowler, J. M. Henshaw, W. M. Williamson, W. B. Pace, Watt Summers, col., and Geo. Dabney, col., were among the number. Mr. Fowler and several others went Sunday night. The rest went yesterday.

The Congressional nomination was of course settled in advance. Christian, Webster, Hopkins and McLean were instructed for Franks with 95 votes. Henderson, Union and Hancock for Seabree with 94 vote.

The only matters of importance to come up, the nomination of Franks being settled and conceded, were the election of two delegates, and one district elector and the instructions to the delegates. The real fight was between Bradley and McKinley. The counties of Davies, Henderson and Union were instructed for Bradley, Christian and Webster for McKinley and the rest un instructed, but leaning to McKinley.

In the election of delegates a hot fight was expected, with half a dozen candidates, among them Maj. S. R. Crounough, of this city. The Kentuckian had arrangements to be notified by telephone as soon as anything was done, but up to 4:30 o'clock had heard nothing. The convention probably had trouble getting down to business.

#### JOHNSON A WINNER.

Additional Returns From the Democratic Primaries in Alabama.

Montgomery, Ala., April 12.—Additional returns received to-day from the Democratic State primaries held yesterday give Joseph F. Johnson, of Jefferson, the free silver candidate, for the gubernatorial nomination, 374 votes of the 604 in the State Convention. Returns from several counties are disputed, but Johnson is undoubtedly nominated by a two-thirds majority.

Many Populists voted for Johnson, on a promise to support the nominee for the general election, thereby reinforcing materially the Democratic party in this State.

#### Eloped On One Leg.

Gallatin, Tenn., April 12.—A romantic and novel marriage was performed here this afternoon by Squire J. B. Donelson. The contracting parties were Mr. W. J. Allen and Miss Dora Bray, and their home is at Hiseville, Madison county, Ky. The elopement was caused by parental objection. The main features which characterized this novel wedding are that the groom was about sixty years of age, with hoary locks and long magnificent gray beard, is totally blind and minus a leg, while his bride, who has not seen seventeen summers, is quite pretty and vivacious.

#### Killed His Wife.

Madisonville, Ky., April 12.—About 4 o'clock this morning a negro named Henry Edmunds, who had not been living with his wife for some time, slipped into her home, and, after treating her in a terrible manner, shot her to death. The woman's sister who was visiting her, ran to her aid and Edmunds shot and dangerously wounded her. Edmunds made his escape, and has not been captured. Excitement here is at a high pitch among the colored population.

#### Arkansas Campaign.

Little Rock, Ark., April 12.—Col. Dan W. Jones, free silver candidate, seems to have the gubernatorial race by the tail with a down hill pull. County conventions and primaries held in different portions of the State during the past week indicate that his nomination is quite certain. Very few of the back counties have yet been heard from, but almost every case Jones delegations have been elected.

#### Fire at Princeton.

Princeton, Ky., April 12.—Fire at 1 o'clock this morning destroyed the planing mills and a large lot of lumber of Eugene Young. It was supposed to have originated from the furnace. The loss is about \$16,000, with only \$2,000 insurance.

Dr. Blakey & Eager insert their protest to come with office hours, in to-day's paper. Both of these gentlemen are too well known personally and professionally to need an introduction to the public. The new firm is a strong one and will at once command a large patronage.

### THE FISCAL COURT.

Close of a Week's Session On Saturday Afternoon.

The Spring term of the County Fiscal Court closed Saturday evening, having been in session five days.

The important transactions up to Thursday afternoon were given in the last issue of the Kentuckian.

The most important action taken was the adoption of a resolution abolishing the fee system in operating the work house. Under this system the county attorney, county judge, magistrates and other court officers were in the habit of collecting from the county the costs and per diems worked out in the work house. This had greatly increased the work house expenses, in which the city is a one-fourth owner, and the matter has been creating a good deal of discussion for a year or more.

When it came to vote all the members acquiesced in it, those opposed to the resolution not voting. It is uncertain what the saving to the county will be.

The annual work house report showed a total of receipts from hands on the road and state sold of 1922.75. The total disbursements were for the year \$187.

Officers cost paid out of work house funds from May 1st, 1895, to July 31st, 1896, \$156.85. Sums paid out of county funds from August 1st, 1895, to March 31st, 1896, \$473.73. Total for year

The city council through a committee asked that the city be allowed two votes in future elections of a work house keeper, her one-fourth interest entitling her to that representation. Esq. Barker moved that the request be granted and the Democrats—Barker, Buckner, Fraser and Parker—voted for it and the Republicans—Long, Collins and Hanbery—and the Populists—Myers—voted no. Judge Breathitt broke the tie and voted no. This will probably lead to a dissolution of the partnership, the city retiring.

The county levy was laid at 50 cents 42 cents for the purposes and 8 cents for interest on the railroad bonds. The poll tax was fixed at \$1.50.

The annual reports of the Work House Committee and of the county attorney as commissioner for the county were received.

Court Assessor J. B. Everett was allowed \$400 for taking the poll tax assessment for the county.

It was ordered that a committee consisting of Esq. Barker and Myers and Judge Breathitt be appointed to buy two more road graders for the county, making four. An appropriation of \$470 was made for the purpose.

The county judge's salary was again fixed at \$1000. A motion to put it to \$800, the salary in 1894, was lost.

The county attorney's salary was left at \$800 and a motion to restore it to the old figure of \$900 was lost. The following larger appropriations made were the following:  
To operate road graders.....\$ 5,000  
Miss Katie McDaniel, bal- 578.10  
ance of salary for 1895..... 3000.00  
For poor house..... 2000.00  
For paupers outside..... 2000.00  
To pay road supervisors..... 1000.00  
For salaries in public offices..... 7000.00  
The annual report of Miss Katie McDaniel, superintendent of schools, was presented to the court. It appeared as follows:

Miss Katie McDaniel's salary as school superintendent was fixed at \$1,500 for 1896. Dr. J. B. Jackson, county physician, was put on the salary roll at \$300 and Clerk Proctor was allowed \$100 for keeping the records of the court for the year.

The magistrates allowed themselves \$3 a day.

#### An Unknown Phoebe.

The body of a man was found floating in West Fork creek, near Kenney, early yesterday morning by John Johnson and Tandy Johnson, two negro fishermen. The corpse was lodged in some bushes and was taken out by the men and Esq. Barker notified. It was so discolored that the color of the dead man could not be told. The Coroner went down yesterday, but at four o'clock the inquest had not been held. The Kentuckian made an effort to get the results, but the scene was some distance from Kenney and nothing could be learned at the hour of going to press.

Foul play is suspected as the stream is not deep enough to drown people.

#### Ballard County Organized.

The Democratic Committee of Ballard county met last week and organized by electing Mr. Sam J. Moore as Chairman, and J. G. Grace, Secretary. Importance is attached to this from the fact that Mr. Moore had been a member of the State Central Committee, becomes Chairman of the First Congressional District Committee and also Chairman of the Appellate District Committee of 18 counties. Mr. Moore is a stalwart free coinage Democrat.

The Missouri Democrats and the Kentucky Republicans held their State conventions to-morrow.

## A KENTUCKY MIRACLE.

JUDGE JOHN M. RICE TELLS HOW HE WAS CURED OF SCIATICA.

Senator Judge, Congressman and Assemblyman.

(From the Lexington, Ky. Post.)

The Hon. John M. Rice, of Louisville, Lawrence County, Kentucky, has for the past two years retired from active life as Circuit and Circuit Judge of the sixteenth Judicial District of Kentucky.

He has for many years served his country and state in the legislative branch of the government at Washington, and, until his retirement, was a noted figure in political and judicial circles. The Judge is well-known throughout the state and possesses the best of health which go to make a Kentucky gentleman honored wherever he is known.

A few days ago a Kentucky flier reported called upon Judge Rice, who in the following words related the history of the curative which he had been the recipient of six years since I had an attack of sciatica, slight at first, but soon developing into a chronic condition of my leg, that was gradually shooting pain in the hips, gradually extending downward to my leg.

"My condition became so bad that I eventually lost all power of my leg, and then the liver, kidneys and bladder and, in fact, my whole system, became deranged.

In 1885, attended by my son John, I went to Hot Springs, Ark., but was not much benefited by some months stay there. My leg was actually doing me no good.

"I fingered in this condition until April, 1893. One day Dr. Williams' Pink Pills for Pale People in the Kentucky Post, Lexington, Wis. I saw them and John prevailed upon me to try them.

I remember I was not expected to live for more than three or four days at the time. The effect of the pills, however, was marvelous and I could not believe it. Without doubt the pills saved my life and while I do not care to testify I cannot refuse to testify to their worth.

"Dr. Williams' Pink Pills for Pale People cured all the elements necessary to give me new life and richness to the blood and restore shattered nerves. They may be had of all druggists, or direct from Dr. Williams' Medicine Company, Schenectady, N. Y., for 50c per box, or six boxes for \$2.50.

Spring, Balm Spring has come, and so has Our Elegant Line of Spring Millinery.

We cordially invite you to come and see our Beautiful Pattern Hats

T. J. Sarzedas At Cost.

Bridge St., Nolen & Pool's old stand.

Jas. I. Belote, Plain and Ornamental Plasterer.

Will make estimates on all kinds of plastering and cement work. All work guaranteed, and prices reasonable. R. M. work a specialty and will receive prompt attention.

## ANTARCTIC POSSIBILITIES.

There May Be a Future for Commerce There.

The recent Antarctic expedition was a commercial one, and commercially it was a failure, because we did not find the right whale, so valuable for its whalebone. The Antarctic was fitted out for the hunt of that peculiar kind of whale; nevertheless, have no doubt that the commercial result of the expedition would have been much better had we worked under more favorable auspices, says a writer in the Century.

I do not by any means consider the fact of our not having met with the right whale in these seas as conclusive proof of their non-existence in the bay of Victoria land. The Antarctic found the right whale at Campbell Island in the winter time; the fact of our not finding them, therefore, however, only means we have not yet found them. Now, to me it does not seem improbable that these whales go south to the bay of Victoria land, where Ross saw them, in the summer, and return north in the winter. It would seem incredible that a man of Sir James Ross' standing, supported as he was by able scientists and experienced whalers, should have made a grave error when he said that this valuable whale was to be found in large numbers in those latitudes.

The difference in the appearance of the blue whale, as we found it there, and the right whale in the method of spouting is so striking that even the most careful observer could not easily be deceived. Very possibly, had we penetrated further into the large open bay discovered by Ross in the vicinity of the volcano peak Erebus and Terror, we too, would have been deceived. Very possibly, had we penetrated further into the large open bay discovered by Ross in the vicinity of the volcano peak Erebus and Terror, we too, would have been deceived.

As I remarked at the International Geographical congress, we found seals. They increased, however, in number as we worked eastward, and seemed afraid of the land. All of the seals that we met on the shore showed much uneasiness and speedily made for the water. A fact which strengthened my belief in the existence of a large enemy of the seal on the continent. I do not doubt that the seal congregates together in larger numbers at some places on the bay.

I consider the guano beds which we discovered of great commercial importance, and they ought to be well worth the attention of enterprising business men. The specimen which I brought back with me contains a large percentage of ammonia. Furthermore, from the analysis of the specimen of rock which I brought back with me, the possible and probable presence of valuable minerals in the continent is proved, although the lava and volcanic aspects of the coast line do not speak favorably for the presence of heavy metals near the surface.

Fire-Proof Paper.

Fire-proof paper, for printing and writing purposes, is now manufactured in Berlin by a patented process. Ninety-five per cent of asbestos fiber of the best quality are washed in a solution of permanganate of calcium and then treated with sulphuric acid as a bleaching agent. Five parts of wood pulp are used in paper factories, are added, and the whole is placed in the agitator box with an addition of lime water and borax. After being thoroughly mixed the material is pumped into the regulating box, and allowed to flow out of a gate on an endless wire cloth, where it enters the usual paper-making machinery. It is easy to apply water marks to this paper, which ordinarily has a smooth surface, but which can be made to have this being more preferable for writing purposes. Paper thus produced is said to resist even the direct influence of flame and remains unharmed even in a white heat.

Slavery in England.

Slavery survived in England much later than is generally supposed. The word bondslave in Northumberland still means a female farm servant. The coolies and salters (i. e., salt miners) of East Lothian were actually slaves till 1773. If they deserted their service any harborer then was liable to a penalty of five pounds if he did not restore them in 24 hours. The last slave in England was not freed completely until 1799 and in 1842 there was a coolie living who, as well as his father and grandfather, had worked as a slave in a pit at Musselburgh.

Her Discouragement.

"You must do your best," said Mr. Hummell's mother to her discouraged John and help him along in his profession. A good wife can do a great deal for a man.

"I know it. But I am sure John will never be famous."

"Because I got all the patent medicines I could find and brought them home. But he dislikes every one of them, so that I am sure he could never be famous."

## Constipation & Biliousness

Sick-headache, Pains in the back, Sallow complexion, Loss of appetite and Exhaustion.

There is only one cure, which is

RAMON'S LIVER PILLS AND TONIC PELLETS

## THE USE OF A LEMON.

Few Fruits Have So Many Excellent Qualities.

There are a great many people in this world who fancy that when lemonade and lemon extract and lemon drops are catalogued, there isn't very much left for this familiar fruit. But when these uses are met, the value of a lemon is scarcely comprehended. As a remedy for a cold, few things are better than lemon-juice and sugar. Very few of the disease germs that cause us the most annoyance are able to survive contact with the juice of the lemon. If, after coming in from a dusty street, or after mingling with the unwashed and unkempt crowds in which we sometimes find ourselves, we would cut off a slice of lemon, rub the face with it, and rinse the mouth and throat with the clear juice, many diseases that now await us would be kept at a proper distance. After having the hands in hot water, or after using many malodorous substances, a thorough rubbing with lemon juice will restore the delicacy of the skin, and remove any objectionable smell. The finger-nails are greatly improved by applications of lemon juice. Pimples and blackheads may be removed or kept away by the lemon juice.

A delicious breakfast of the teeth with lemon juice is a most excellent thing, provided the acid is carefully washed away afterward. It is said that corns and bunions may be removed by binding on a piece of lemon night after night. Certainly when the feet are tired and swollen, there is nothing better as an application, after a good bathing, than lemon juice and alcohol in equal parts. A tabescent, or feeble, or nervous person, after a good bathing, after lemons are used for table purposes, the pieces may be put on a shelf over the kitchen sink, where they will be handy to rub the hands with, to remove stains, to take spots out of linen, or to mix with salt and polish brasses. There is probably no fruit in ordinary use that has so many excellent qualities and is so comprehensive as the lemon.—N. Y. Ledger.

## ENGLISH WOMEN IN AFRICA.

The Exploration Fad Seems to Be Spreading Rapidly.

Miss Kingsley, the African explorer, it is said, will be setting out before many months to explore West Africa. She is enthusiastic over her travels in Africa, and boasts in the picture to climbing the Cameroons, of having led a party through the country of cannibal Fangs. The picture which she gives of the Fangs and their manner of living shows her to be in a measure correct. The tribe, and she also tells of a race of savages who live in the recesses of these African forests. The case of the Fangs—since they have pressed down from the center of the continent—suggests what a world of strange things and beings may yet be hidden away in "Darkest Africa."

Miss Kingsley knew that the surroundings amid which she found herself here and there were dangerous, but she never believed the danger. If asked if she felt nervous at any time she would say: "Oh, dear, no; why should I? I knew before I started that it was running certain risks, and I had just made up my mind to them."

African expeditions threaten to become fads for rich women. Two young women are now traveling up to Bulawayo, South Africa, by wagon, with all the comforts of the road, including a valet and attendants. Mail coach travelers who have passed them report that they are dressed in the most approved style; light-fitting shooting jackets, short, pleated, striped skirts, rifles at back, with cartridge belt, etc.,—altogether a charming outfit. What next?—N. Y. Press.

## To Remove Tattoo Marks.

Many persons who have foolishly in the days of youth permitted themselves to be tattooed would now give much to be rid of the marking. It is popularly believed that it is impossible, but a Vienna paper gives an recipe by which it has been done with considerable success. A paste consisting of salicylic acid and glycerine is applied thickly to the spot to be treated. A compress is fastened upon the spot, and the marking is taken off. After a week it is taken off and it will be found that the epidermis has peeled off. This treatment is ordinarily repeated three or four times, the tattooed skin becoming more faint each time. It ought to disappear entirely after the third or fourth application of the paste.

## His Mother on the Throne.

The mother of the king of Ashanti has been enthroned as queen that great and powerful African nation. The war party, having deposed King Prempong, placed his mother upon the throne with all beauteous pomp and festivities.

A fresh mind keeps the body fresh.—Dulver.

## What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and alls Feverishness. Castoria prevents vomiting Sour Curls, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

**Castoria.** "Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." Dr. G. C. Osmond, Lowell, Mass.

**Castoria.** "Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup, and other harmful agents down their throats, thereby sending them to premature graves." Dr. J. P. Kneeland, Conway, Ark.

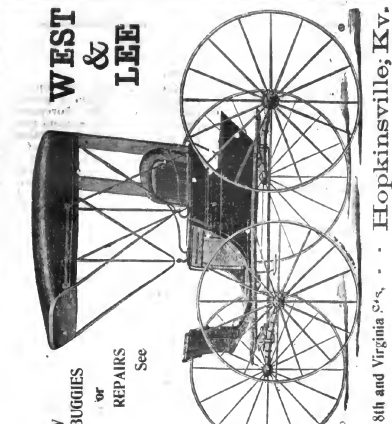

**Castoria.** "Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it." UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

**Castoria.** "I recommend it as superior to any prescription known to me." Dr. G. C. Osmond, Lowell, Mass.

OFFICE 215 SOUTH MAIN STREET.

TUESDAY, APRIL 14th, 1896.

Gov. Boies, of Iowa, is a candidate for President and the Kentucky Democracy has some very high authority for taking the position that he is a better man for President than Mr. Carlisle. In 1892 Kentucky cast 18 votes for Cleveland, 6 for Carlisle and 2 for Boies, in the Chicago Convention, and Henry Watterson and John S. Rhea were the two Boies men. The chances are that John Rhea will vote the same way this year, but also Marco Henri has gone to Yurup and can't stand by the man he preferred to Carlisle.

This is the regular year for the election of an appellate judge in another district, all of the judges being elected in the even years, and the claim that an election cannot be lawfully held in this district is merely a wish founded on one of those "technicalities" for which our friend Judge Landes is noted. The Judge thinks his appointment runs till 1897, but it is well to remember that

"When said the trembling balance turns  
The rarely well adjusted."

The goldbugs of New York are sending "plate matter" free of charge to all papers that will use it "to educate the people on the money question." The people are just now enjoying a little experimental and practical financial education of the gold bug breed, and it don't seem to cure 'em of the "mortgage habit" that has been almost epidemic—Dover, Ky. News.

Both France and Germany are ready to return to bimetalism whenever the United States sets the example. Only last week the German Reichstag declared in favor of a double standard and call upon the German states to "Do all in their power to secure by international convention a fixed proportion of value between silver and gold."

The gold standard policy of the latter day Democratic saints, known in common parlance as goldbugs, has not increased the value of taxable property in Kentucky. A fall of \$20,000,000 within a year does not look like prosperity had returned, and perched herself over the doorway of the old Kentucky home—Crittenden Press.

The Courier-Journal's republication of the sentiments of the Kentucky Democratic papers on Carlisle's candidacy in the last four days of last week showed 46 for and 28 against him. This does not show any over-tremendous "enthusiasm" or much "State pride" so far.

The Democrats and Populists have united on Esq. R. T. Reader, Populist, to oppose Dr. James, the Republican candidate for Senator in the Greenville district. The vote in 1895 stood: Bradley, 5583; Hardin, 3721; Pettit, 1011. James has the best of it.

The Democrats of Kentucky are still wondering how the Courier-Journal ever happened to let Bill Goebel and Charlie Bronston speak in Louisville. It was a concession that has caused the wobbly old mono to be complimented on all sides for its fairness and disposition to harmonize.

The Times throws cold water on Gen. Castlemans' candidacy for district delegate. If the Fifth district doesn't know how to "push a good thing," perhaps the State convention will have to send Gen. Castlemans as a delegate-at-large, as it did four years ago.

Gov. John E. Jones, of Nevada, died Friday, aged 56 years and has been succeeded as Governor by Lieut. Gov. Reinhold Sadler. Gov. Jones was elected by the silver party and became Governor last year.

The Louisville papers are beginning to suffer from remorse. The Courier-Journal even has this to say: "It hasn't been six months since the Republicans carried this State and the people are already sick of the whole mob."

Oregon Democrats in State Convention declared for free silver in unmistakable terms.

Wall street has begun its campaign for the gold dollar standard. It is sending out ready prepared matter from 52 William street, New York, to gold bug papers without cost. They even go further than that. They will send you good-bug matter for one side of your paper and miscellaneous matter for the other side, without money and without price. This is the fruit of the manifesto issued by the gold sharks of Wall street a few weeks since, announcing that money would be needed to conduct a gold campaign and it seems the money came without delay. This is no exaggeration, but gold facts that the bimetallic people must meet. The people can beat money if they will, but it is no child's play. Let every friend of the money of the Constitution and every foe of the Wall street thieves stand without flinching, and they can beat anybody the pirates name. If this government is only for the bidding of bond buyers and the gold sharks that prey upon the nation's vitality, the sooner the people know it the better, bitter though the fact be—Bowling Green Courier.

This corrupt proposition is not only made to gold-bug papers, but to Democratic papers as well. They offer to furnish "insides," "broad-sides" or "plate matter" free of charge and the shame of it is that a few Kentucky papers are accepting the bribe. We get it regularly, but prefer to pay our own plate bills.

Honest, sensible and popular Dr. Carlisle will be given a walk-over in the Second Congressional district. This may not leave a champagne taste in the mouths of some of the effervescent young men who were supposing the office had put on its warpaint and was out on their trail, but it will strike the Democrats who do the voting as the sensible thing to do. The Doctor may be modest in pretensions to exalted statesmanship, but he has preserved his name untarnished and there is no smell of fire on his garments—Bowling Green Courier.

Following are the Cuban resolutions adopted by both branches of Congress. Resolved, That in the opinion of Congress, a condition of public war exists between the Government of Spain and the Government proclaimed and for some time maintained by force of arms by the people of Cuba, and that the United States of America should maintain a strict neutrality between the contending powers, according to each all the rights of belligerents in the ports and territory of the United States.

Resolved, That the friendly offices of the United States should be offered by the President for the recognition of the independence of Cuba.

The daily papers of Sunday were filled with the disgusting details of the "confession" of H. H. Holmes, who will be hanged at Philadelphia May 7. He claimed to have murdered 27 people and narrates at great length his various murders and other revolting crimes.

This from the Carrollton News, published in Carlisle's own district: "Carroll county saved John G. Carlisle when Thoebe made a contest, but he will not get the support of Carroll in his race for Presidency. It will be the same in Boone, Gallatin and Trimble."

It is now denied that Cleveland sent that "fun and courteous" message to Spain, but the correspondents still assert that it was sent.

Gov. Bradley has pardoned another brother in his A. P. A. lodge, a man named Harry Burnett, convicted of carrying a concealed deadly weapon.

Cullum has withdrawn from the race for President. It is coming down to a square contest between McKinley and Reed for the Republican nomination.

Why not run Harrison on the Dimmick rat ticket, since he has disregarded the Elder Weller's advice to his son.

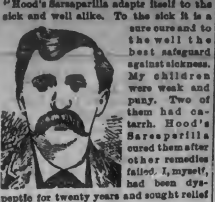

It is said Congress is preparing to adjourn in six weeks.

Gov. John E. Jones, of Nevada, died Friday, aged 56 years and has been succeeded as Governor by Lieut. Gov. Reinhold Sadler. Gov. Jones was elected by the silver party and became Governor last year.

The Louisville papers are beginning to suffer from remorse. The Courier-Journal even has this to say: "It hasn't been six months since the Republicans carried this State and the people are already sick of the whole mob."

Oregon Democrats in State Convention declared for free silver in unmistakable terms.

It is all one way in Missouri. Even in the great cities of St. Louis and Kansas City the silver men swept nearly every ward.

A Doubtful Platform.  
(Bowling Green Courier.)

The boast that is made of John G. Carlisle being within himself a Democratic platform, is to the mind of the people very confusing. The Democracy do not know whether he stands with Wall street, where Mr. Cleveland planted him when he entered the Cabinet, or whether he stands where he did in Congress in 1878 when he was representing the Democracy of Kentucky. But that is for the reader to judge.

Here is what Mr. Carlisle said in 1878 before he attempted his colossal stride in 1896: "I shall not enter into an examination of the causes which have combined to depreciate the relative value of silver, and to appreciate the value of gold since 1873, but I am one of those who believe that they are transient and temporary in their nature, and that when they have passed away or have been removed by the separate or united actions of the nations most deeply interested in the subject, the old ratio of actual and relative value will be re-established on a firmer foundation than ever. I know that the world's stock of precious metals is none too large, and I see no reason to apprehend that it will ever become so. Mankind will be fortunate, indeed, if the annual production of gold and silver coin shall keep pace with the annual increase of population, commerce and industry. Ac-

cording to my view of the subject, the conspiracy which seems to have been formed here and in Europe to destroy, by legislation, and otherwise, from three-sevenths to one-half the metallic money of the world is the most gigantic crime of this or any other age. The consummation of such a scheme would ultimately entail more misery upon the human race than all the war, pestilences and famine that ever occurred in the history of the world. The absolute instantaneous destruction of half the movable property in the world, including houses, ships, railroads and all other appliances for carrying on commerce, while it would be felt more sensibly at the moment, would not produce anything like the prolonged distress and disorganization of society that must inevitably result from the permanent annihilation of one-half the metallic money of the world."

Tillman at Owensboro.

Senator Ben Tillman, of South Carolina, who spoke at Lexington on Saturday, will stop in Kentucky again on his return from Denver and speak in Owensboro on Wednesday April 22. The silver people are preparing to make the visit of Senator Tillman

Master Lee Price is dangerously ill of fever at his home near here.

Maj. John S. Long returned from Madisonville yesterday.

Mrs. Carden, of Lexington, is visiting here this week.

Best wishes to the Kentuckians.

ELLIS.

COUNTY SUPERINTENDENT'S REPORT TO APRIL 9, 1906.

To the Christian County Court of Claims;

GENTLEMEN:

I, Katie McDaniel, County Superintendent of Christian county, beg leave to make to your honorable body the following annual report of the condition of your schools since April 3, 1905, the time of my last report.

There were reported to me by the trustees, 11,910 pupil children. During the month of May, I examined carefully every census report and found that there were 11,556 pupils, the difference of 354 being due to the enrollment of persons over age, under age and double countings.

I found no evidence of any intended fraud, but think the mistakes were made through carelessness, and in some cases, ignorance of the real boundary line. I sent in March of this year to each district, white and colored, a circular letter giving minute instructions in regard to taking the census.

I have also tried to adjust the boundaries that all double listing would be avoided. I trust with these precautions there will be very few chances to make the error this year. By correcting the last census I saved to the State and County \$997.55. The per capita being \$2.51 for the present and one-half by the State and County on the 11,556 pupils, \$29,933.24. I have paid to the various teachers upon the orders of trustees, \$28,553.53, leaving a balance on hand of \$1,379.71 not yet called for. There still remains due from the State a balance of \$326.92, which is 10 per cent. of the whole, or one-half of the salary for the fifth month. This will not be paid, the Treasurer thinks, before July 1st.

There are a few of the schools still in session and four did not open in full till January. In more of the districts than usual a subscription school is now being taught, which is encouraging.

I held in August two institutes of five days each, one for the white and one for the colored teachers. For both of these, able instructors were secured and the attendance was excellent. My intention is to have another but the best to instruct the Institutes that the teachers may thereby derive the greatest benefit from these annual meetings. I have received from both Institutes \$159, and have paid for expenses \$127.10, leaving in my hands due \$32.80. (See itemized account in Record Book, pages 130 and 140.)

For the County Teachers' Library Fund I have received from the Institute Fund and balance from last year, \$40.10, and have paid for books and expenses, \$12.02, leaving the amount now to the credit of this fund \$28.08. (See itemized account in Record Book, pages 160 and 169.) This amount will be expended for new books as soon as selections can be made.

I have held ten examinations, of ten days each for teachers' certificates—five for the white and five for the colored teachers. Sixty-four certificates were issued to white and fifty to colored teachers, and there were one hundred and twenty failures. I have also held two examinations for white and colored for graduation in the common schools. Diplomas were granted to five white graduates, one from No. 5 and four from Gordon's Field District. This was a young class and an unusually bright one as well. I hope to arouse greater interest in this subject on the part of pupils, teachers and parents, as it is of the greatest importance. From examination fees I have received \$298 and have paid my examiners, as the law directs: To C. H. Dietrich, \$88.50; to A. C. Kuykendall, \$154.50. Total, \$253.00. (For itemized account, see Record Book, page 54.)

I have received from taxation of districts for building and repairing school houses and supplying apparatus, including balance from last year, \$2,753.30, and have paid out for the above purposes, \$2,022.99, and now have on hand to credit of said fund \$730.36 due the various districts. (See record book, pages 215-229 for figures, and 400-454 for the colored.

New school houses have been built in six districts, 6 white and two colored. Others have been repaired and many have bought and improved furniture and apparatus. Several new houses will be built this spring. Our houses and furniture are gradually improving and we hope the day is not far distant when we can point with pride to a neat, comfortable, commodious and well-equipped school house in every district in the county.

I have visited each one of your 143 school houses and many of them more than once. I have made during the year 165 visits to the schools. Several days were spent in each of the city schools, white and colored. I found enrolled on the days of my visits to the various schools 6045, and 4152 present. I heard 825 recitations and made a great number of talks. For a more detailed statement see "Record of Visits."

I have held 9 educational meetings for the teachers. The attendance was excellent. The program was interesting and helpful, and the patrons as well as the teachers were much benefited thereby.

Last May, Reading Circle certificates were issued to all teachers who had completed the Course of Study and passed the required examinations in the State Teachers' Reading Circle. Of white and 90 colored teachers—total 77—received certificates. We have a large circle this year. The Course of Study includes the history of Ky. and local history.

ogy. Nearly all of the teachers read

in our journal. In our library

for white teachers we have 101 volumes and for colored teachers 144 volumes.

The attendance in many of our schools was not good this year. There were various causes for this. Sick-

ness prevailed to an unusual extent in some districts. Several schools had to suspend temporarily on account of diphtheria and the attendance was not good afterwards.

In addition to sickness many children both male and female were kept from school to assist in caring for and housing the unusually large tobacco crop. In spite of so many obstacles, however, there was a good done by conscientious, faithful teachers. Of course in a district where the "teacher" is a more "time-keeper" little good is accomplished even under the most favorable circumstances.

As you know we have now in Kentucky, strange as it seems to us, a compulsory attendance law. While we may not have favored its passage at this time when other reforms seemed to be pressing, yet as it is a law, all of us owe it allegiance and a fair trial. I shall, for my part, inform the trustees in regard to its requirements and try to see that it is enforced in this county. The provisions of the bill are reasonable and not radical, and I trust we may see from many beneficial results. In some of our school houses, however, I fear we may not have room sufficient to accommodate all of the children.

In conclusion, I will say that my work has been very hard and somewhat entrusted to me. I have labored faithfully for the improvement of our schools and teachers, and while I am not satisfied, yet I am encouraged. I am not satisfied, yet shall continue to strive for even better results. I trust that this report may find in your approval and you may deem my services worthy of the usual compensation.

Respectfully Submitted,

Katie McDaniel,

County Supt.

Hopkinsville, Ky., April 9th, 1906.

Vitalia, double strength, for sale by druggists.

Demorest's Magazine comes to us in Easter dress, and with Easter pictures and poems and general "spring" character, makes one immediately feel in accord with the season. The first article, "Flower Fates and Fashions," introduces us to all the lands where Flora is feted during the months of her reign, and pictorially one becomes intimately acquainted with a favorite spot in her kingdom, Southern California. "Bermuda the Beautiful" transports one to the land of the Easter lily, where miles and miles of fields are given to the "pure, proud lilies" for the adornment of our churches.

Everyone who will take the trouble to cut out this notice and forward it, with ten cents, to the address below, will receive a sample copy of Demorest's Magazine, containing a Pattern Order which entitles the holder to any pattern illustrated in any number of the Magazine published during the last twelve months, at the uniform price of four cents each; and frequently one thirty patterns are illustrated in one number, thus affording an almost unlimited variety to select from. Demorest's is published for \$2 a year, by The Demorest Publishing Company, 110 Fifth Avenue, New York.

Miners go on a strike.

The coal miners at Deaneville, in Daviess county, are on a strike because of the summer scale that has been announced to take effect in a few days. The operators of the mines will not pay what the miners ask and the men claim that they will not, under any circumstances, work for less than a winter scale. It is likely that new men will be supplied to take the place of the regular hands.

Is a chestnut stallion, 16 hands high, a combined saddle and harness stallion, is stylish and a good actor. He has been entered in four fairs, in the saddle and harness rings, and never was beaten. He will make the present season at my stable on the farm known as the Waterside farm, Green place or J. C. Thurmond's farm. \$12 to insure. Care taken to prevent accidents, but no liability should any usual rates. Money for season due on usual conditions.

Pedigree: Sired by Manager Gold Dust, 2:20; he by Forrest Gold Dust, 2:26. First dam Mollie Witchee, sired by Elliston's Rattler, out of a Dan Rice mare.

STARLIGHT

Having a Starlight Jack, I will stand him the present season on my farm, six miles west of Hopkinsville, on the following terms: \$10 to insure mare with foal, money due when mare is proven in foal or is transferred. Starlight is black, with white points. The Starlights are too well known to need any further description.

LESLIE A. SCHMERS.

FOR SALE, a second-hand traction engine and separator and a portable engine and separator. Almost as good as new. Winfree Bros & Co.

ATTENTION, ALL!

Now is the time to have your buggies repaired and repaired. Bring them in and have them fixed at "hard times" prices.

C. W. DUCKER.

Old stand—west side Virginia St.

Our Splendid Young Jack

DAY STAR.

Will make the present season at the Locust Grove Farm, near the Watkins Place, The Square post-office, at \$10 to insure a mare with foal; money due when the mare proves to be with foal, or is transferred.

DAY STAR is a black jack, five years old and can run like a race horse.

W. B. & M. A. MASON.

Notice.

On April 6th I will open public training stable at Hopkinsville fair grounds, where I will be prepared to break colts, develop trotters and pacers, also good condition runners for racing; having in my employ an experienced jockey. Pasturage on reasonable terms. All stock entrusted to me will receive my personal attention.

Care taken to prevent accidents but not responsible should any occur. Soliciting your patronage, I am very respectfully,

C. E. TANDY.

Sell Your Saw Mill.

Light saw mill right wanted. Address

### CLEVER RIDING.

Training of Men and Horses Shown in Cavalry Drill.

A hundred or more persons went over to Fort Myer the other afternoon to witness the first exhibition drill of the season by the two cavalry troops of the Sixth United States Cavalry. The exhibition was given in the large riding hall, where all were out of the biting wind that swept down the parade.

There is probably no other set of officers and men in the army who can give such a display of horsemanship as Troops G and A of the Sixth. The drill given by them tends more to show to what a high degree of efficiency men and horses can be trained than to display knowledge of cavalry movements. At the bottom of the whole drill is the one aim of every true cavalry officer to make his men so familiar with the horses that they can do almost anything with or on them. The officers argue that a cavalryman must be able to ride a horse under all and all conditions; know how to fall off without being injured, ride without stirrups or saddle, and also standing in the stirrups, and have full use of the arms for fighting.

While every troop in the army has to undergo what the soldiers call "bull ring" drill, there is none that has so fully developed the idea as these two troops at Fort Myer. This is in a great measure due to the untiring efforts of the officers—among them Lieut. Short, who is an acknowledged premier in the saddle—and the esprit du corps of the men, which in G and A exists to a remarkable degree. The men in these troops always try to outdo each other.

Troop G was the first to come out, under command of Capt. West, assisted by First Lieut. Gallagher and Second Lieut. Stout. The men gave an excellent exhibition of fancy riding. Cossack riding was first given, and in this the men, with stirrups crossed, stood up and rode about the hall in a fearless manner. They rode even better than the Cossacks who were with Buffalo Bill's show. To show the training of the horses, they made passages, side movements with ease, and other difficult feats to teach a horse. Other movements given by the troop were loudly applauded.

Troop A, Capt. Kendall, Lieuts. Short and White, closed the drill. After going through similar movements the men gave a very interesting exhibition of hurdle jumping and using horses for hurdles. In the latter some of the horses were a little ill-tempered, but were quickly subdued.

The most serviceable thing of the whole exhibition was the use of horses for breastworks. The horses are taught to lie down by the use of straps, coming from the right side of the foreleg over the shoulder, while the left leg is off the ground and hobbled. The soldier pulls on the shoulder straps, shoves against the left shoulder, and down goes the horse. After a time the only thing necessary is to pick up the left front leg and shove at the shoulder, while some of the more intelligent animals need only a shove. The use of horses as breastworks has long been in vogue on the plains during Indian fights, but the horses had first to be shot. The training of recent years has done away with this necessity.

Since last season the men and horses at Fort Myer have greatly improved and give a much finer exhibition. They do more feats in fancy riding, and a great many more men have developed sufficient skill to accomplish those which only a few did last year.—Washington Post.

### Remarkable Twins.

Tillie and Lizzie, of Philadelphia, 19 years old, are remarkable twins, if the stories told of them be true. When one suffers pain, the other feels it also. Either sister can find the other in a crowd of any size "without hunting," as they express it. The resemblance between the two girls is remarkable. Both weigh exactly the same. Their recollections of past events are precisely the same. Neither one can recall a single occurrence that did not happen in the presence of both. It takes the minds of both to retain a lasting recollection of any happening, but when the fact is once impressed upon the minds of both, neither one can forget its least important features.

### What They Said.

The late Prof. Blackie was once standing in front of the fire at the lodge of Balliol, and, shouting out, with a roll of the famous plaid and a toss of the equally famous wild white hair: "I should like to know what you Oxford fellows say of me behind my back!" After a moment's pause, Jowett, the master of Balliol, replied mildly: "We don't mention you at all."

### Big Diamond.

A 324-carat diamond, the finest ever found in Africa, was discovered at Jagersfontein, in the Transvaal, on the day after Christmas. When cut it is expected that it will be worth \$1,500,000.

### BEEVITIES OF FUN.

—Trying to be witty is like trying to be pretty.—Fileglobe Blatter.

—"My fuel gas bill amounted to \$20 this month," said Hiland. "You must have money to burn," replied Halket.—Pittsburgh Chronicle-Telegraph.

—Ringray—"Your sister expects me to dinner, doesn't she, Willie?" Willie—"Oh, yes. She said she didn't know but what you might stay to breakfast."—Life.

—Doctor—"Didn't I tell you not to tax your brain?" Literary Patient—"I'm not. I'm only writing for one of the high-class magazines."—Philadelphia Record.

—Teacher—"Olga, translate the following sentence into French: 'My cousin Arthur is greatly attached to me.' Olga (quickly)—"His name is Max."—Fileglobe Blatter.

—"Mamma, I really cannot see why you call my Reginald 'the lodge'; indeed I cannot." "I call him that because he is such a poor excuse for a man."—Indianapolis Journal.

—Will some one tell "A Curious Reader" why the pictures of horseless carriages show that many of these new vehicles are provided with whip sockets?—Boston Journal.

—Master—"How was this vase smashed, Mary?" Mary—"If you please, sir, it tumbled down and broke itself." Master—"Humph! The automatic broke again!"—Tit-Bits.

—"I think," said the weather prophet thoughtfully, "that we are to have a little typical Chicago weather." "What kind is that?" "All kinds at once," replied the weather prophet.—Chicago Evening Post.

—Teacher—"George, what excuse have you for being late?" George—"Only a far-fetched one." Teacher—"What do you mean?" George—"The conductor of the car carried me several blocks past the school."—Harper's Round Table.

—He Finds Out—"What questions do the ignoramuses ask you the oftenest?" Inquired the lounge, putting his feet up on the table of the answers-to-queries man. "That one," eagerly responded the information officer.—Chicago Tribune.

—Mother—"Now, Willie, you've been eating mince pies till you've made yourself ill. I shall have to send for the doctor." Willie—"I say, if you are sending for the doctor, I have another mince pie. It won't make any difference, you know."—Moonshine.

### CHINESE EDITOR IN CHINA.

First Native Editorial Staff Begins Turning Out a Newspaper.

Information received in Washington is to the effect that a newspaper has been established at Peking by Chinese and printed in Chinese language under the patronage of some of the most powerful princes of the court.

It is called the Wan-Kuo-Kung-Pao, or Universal Intelligence, and will be edited by a young graduate of Hamilton college of which Dr. Martin, an American missionary, has been president for years.

This audacious and progressive person is Kang Chang-Su, a native of Canton, who, only a few years ago, was in deep disgrace because of some rather heretical comments he published under the classes of Confucius.

Associated with him in the enterprise are such men as Yuan Shih-kai, ex-minister to Korea; a secretary of the grand council, a grand nephew of the imperial tutor, Weng, a son of the late Marquis Teng, a nephew of Prince Li, and some 15 others of high literary rank or of great official families.

These gentlemen have formed a club known as the Universal Intelligence association, which assumes the expense of publication, and will contribute to the periodical, which will be issued twice a month. Chang Chih Tung, the viceroy of Nankin, has subscribed \$5,000 toward the capital; an uncle of the emperor has given a building, rent free, and the president of the board of revenue has pledged a subsidy from the government.

There are now only six newspapers printed in the Chinese language—two at Canton, one at Shanghai, one at Hankow, one at Tientsin, all owned and published by foreigners, and the venerable Peking Gazette, which is the oldest journal in the world, and for 800 years has been issued regularly at the capital to make known the imperial edicts and other official information.

The proposed newspaper, which is evidently issued with the consent of the government, is the most radical innovation made in China for many years.—N. Y. Sun.

### Object the Same.

Lady Henry Somerset once attempted to form a league for the suppression of foot-binding in China. It failed lamentably. One Chinese maiden is said to have put the case to her ladyship in these words: "We squeaky foot! You squeaky waist! Same object—both get the husband."—N. Y. World.

"A very smooth article."

## BattleAx PLUG

Don't compare "Battle Ax" with low grade tobaccos—compare "Battle Ax" with the best on the market, and you will find you get for 5 cents almost as much "Battle Ax" as you do of other high grade brands for 10 cents.

## BASSETT & CO.

### HERE AND THERE

Buckner & Owsley for Insurance.

The "Henry Block," owned by Garnett & Williams, is being much improved by a new coat of paint.

Dr. E. N. Fruit, dentist, office over City Bank, Hopkinsville, Ky.

The directors will no doubt have a fair this year, but they cannot begin advertising it too soon.

Contra Cold Tablets will stop a fresh cold in 30 minutes. Guaranteed, 25 cents of R. C. Hardwick.

Forbes & Bro. are getting ready to put in a new line of fruit to their planning mill on Virginia street.

Stop sneezing and sniffing, take Contra Cold Tablets. Guaranteed or money refunded. 25 cents of R. C. Hardwick.

New garments are being put down on Eighth Street, between Main and Virginia.

Dagg & Richards have built and furnished a new office at their planning mill on Virginia Street.

Without a killing frost in a few days the fruit crop this year will double that of last year.

Father W. D. Pike, of Russellville, held services at the Catholic church Sunday.

Presiding Elder D. M. Lawson preached at the Methodist church Sunday morning.

Mr. W. R. Peel, Messrs. Hanbury & Shryer's active representatives, are again after a protracted illness.

A good wagon maker wanted at Gracery, Ky., by N. B. Stauffer. Will pay good wages. Steady work until December. Call at once.

N. B. STAUFFER.

We see many symptoms of an increase of business now that the planters are getting the money for their last year's crop of tobacco.

The crowd from the country was small last Saturday, as the farmers were busy planting corn. Many of them are through planting.

Eighty convicts in the penitentiary, at Frankfort are down with the measles and almost the entire prison has been turned into a hospital.

The partial stock law has worked so well that a full stock law should be enforced. In our opinion it would meet with great favor.

R. H. Gill, of Allensville, has purchased of Thomas McReynolds, of the same place, his fine farm of 240 acres, paying \$50 per acre for same.

The Leavelle homestead has been subdivided into a number of splendid residence lots which are for sale on easy terms. Apply to Henry & Leavelle.

Dick Holland pays more attention to street repairs than any man who has ever been on the street committee.

Judge Landis left Sunday for Frankfort to be present at the opening of the spring term of the Court of Appeals yesterday.

Miss Edna Ellis entertained a number of the young people Friday evening, at her home on Thirteenth street. Ten or twelve couples were present.

The Water Company is doing a great deal of work in the way of letting down the streets along where it put down its main lines of piping.

Messrs. Geo. C. Long, Clarence Anderson, Harry Hopper and several other gentlemen, left yesterday for Pond River on a fishing trip.

Miss Mildred Johnson, a niece of Mrs. C. B. Webb, of this city, will be married in June to Mr. Chas. Pennington, a railroad man of Chicago.

The Epworth Leagues of the State held their annual convention at Frankfort last week. A large delegation of Hopkinsville Methodists attended. They returned yesterday.

Jan Hughes, who killed Marshal Smiley at Providence some time ago, has been indicted for murder in the first degree by the Webster county grand jury.

Don't put off planting your garden too long, but go to Wallis' and get your seed and "keep" up with the procession. Ready cooked French kidney beans.

Superintendent B. F. Dickson, of the L. & N., has gone to the Oklawaha, Ind., mineral springs to take treatment for rheumatism. His family accompanied him.—Evanville Courier.

Dr. B. F. Eager received a letter from Dr. E. W. Stone yesterday, written from Cairo, Egypt. He and his party are on their way to Palestine and will probably be there this week. The Doctor sent in his letter a leaf plucked from the spot where Moses was found in the bullrushes. He is having a royal time.

When Traveling

Whether on pleasure bent, or business, take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectively on the kidneys, liver, and bowels, preventing fevers, headaches, and other forms of sickness. For sale in 50 cent and \$1 bottles by all leading druggists. Manufactured by the California Fig Syrup Company only.

On Monday, May 4, 1891, I will offer for sale at the court house door in Hopkinsville, Ky., all of the books, accounts and notes belonging to the estate of the late E. E. Earle.

### SILVER TOWN.

Senator Harris Says It Will Control Platform and Candidate.

Washington, D. C., April 10.—Senator Harris, in discussing the free silver movement said:

"The committee of which I am Chairman is in receipt of abundant information from the various States to justify my assertion at this time that the free coinage people will enter the Chicago Convention with a pronounced majority, such a majority as will dictate from the start."

"These terms will be unchangeable. They will be free coinage of silver at the ratio of 16 to 1, and the candidate must stand squarely upon the platform. There will be no surrender."

"As master of the field, we shall write the platform and name the candidates."

### The State Fish Law

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That it shall be unlawful for any person or persons to catch or destroy fish in any of the running waters, lakes or ponds, other than private ponds, of this State, by means of a seine, other than a dip net, drag or trap, except streams forming the boundary line between this and other States. Any one thus offending shall, on conviction, be fined in a sum not less than twenty-five dollars nor more than fifty dollars for each offense and cost of prosecution.

§ 2. That any person or persons who shall place or cause to be placed, in any of the running waters designated in section one, any drug, injurious substance, medicated bait, or dynamite or other explosive agent, with intent to injure, poison or catch fish, shall be guilty of a misdemeanor, and, on conviction thereof, shall be fined not less than fifty dollars nor more than one hundred dollars for each offense, and cost of prosecution.

§ 3. That sixty per centum of all the fines collected for violations of the provisions of this act shall be paid to the treasury of the county in which such fines are imposed, the remaining forty per centum to be paid to the civil officers securing the apprehension and conviction.

§ 4. That the circuit courts of the respective counties of the State, wherein any of these offenses herein enumerated are committed, shall have exclusive jurisdiction to indict, try and punish such offenders.

§ 5. That it shall be the duty of the judge in all circuit courts of the respective counties of this State to give this act specially in charge to each grand jury of said court.

§ 6. That this act shall not be construed to prevent any person from using minnow seines less than ten feet in length and four feet in depth to catch minnows for bait, or trot lines, or pole and line to catch fish.

§ 7. That acts or parts of acts heretofore passed, in conflict with this act, are hereby repealed.

§ 8. Whereas, the fish in the streams of this State are being constantly killed by drugs, and dynamite and other explosives, and an emergency is declared to exist, and this act shall take effect when signed by the Governor.

### Democratic Campaign Book.

Louisville, April 10.—Mr. R. H. Ingram, Secretary of the late Democratic Campaign Committee, is hard at work with a crop of clerks on a new Democratic hand-book, which will contain much valuable information and be almost indispensable in the coming campaign. "The book," said Mr. Ingram, "will be ready by May 1. At any rate, we will have it out by the time the State Democratic Convention is held."

"The book will contain the names of every precinct committeeman in the State, as well as the names of the Chairman and Secretaries of the various county committees."

### Notice to the Public.

### Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a congested condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that like the one remedy which promotes internal cleanliness without debilitating the organs, which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxative of Figs stands highest and is most largely used and gives most general satisfaction.

Other remedies are then not needed. If, in the enjoyment of good health, and the system is regular, laxative of Figs stands highest and is most largely used and gives most general satisfaction.
